### HOW TO TURN ON THE SCREEN AND ACCESS THE VARIOUS FUNCTIONS

- Tap the screen at any point, or
- Press the button (5) at the bottom right of the screen to bring up the Home Page.

The Home Page is the following:

and gives access to the following functions:

View footage from the video camera.

Mute the call (Mute) to the monitor (the activation of this function is highlighted by the red indicator LED 3 lighting up and by the flashing of the Mute icon).

Access the Yokis Home Automation screen page.

View a snapshot from among those already saved to the photo gallery.

Make an intercom call to other users in the same apartment or between users in different apartments.

Turn off the screen.

Change monitor settings

Current time.

## 2.1 HOW TO TURN OFF THE SCREEN

To turn off the screen press the Monitor button (5) or wait for the timeout delay.

## 2.2 HOW TO ANSWER AN EXTERNAL CALL

When the CXModo Monitor receives an outdoor door phone video call, it rings and the screen lights up from its default switched-off state.

By tapping the various icons you can:

 Answer the call and begin a hands-free conversation; then, to end the call press the same icon once again, the screen will turn itself off.

 Open the door.

 Open a driveway or garage gate.

 Activate an auxiliary function, e.g. turning on the stair lights.

 Open a submenu where you can:

 Change the audio volume in the calling point-to-monitor direction, or the brightness, contrast, and colour of the display.

 Enlarge or shrink the image, also changing its format from 4:3 to 16:9.

 (Do not use: pre-setting for future functions.)

 Store a snapshot of the outdoor picture displayed on the screen.

 Turn the monitor microphone off and then back on, to prevent the caller hearing what you are saying. The icon will only be active after the call has been answered.

 Close the previous submenu.

## 2.3 HOW TO ACTIVATE A YOKIS CONTROL

From the Home Page press the button to access Yokis Home Automation:

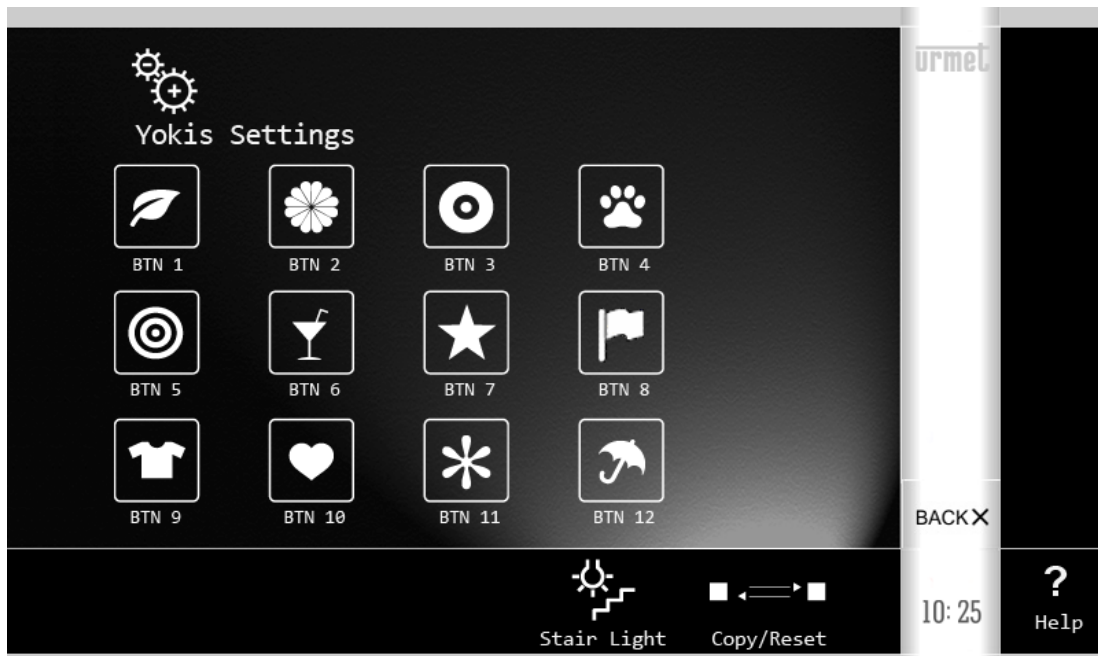

From here, select your required control(s).

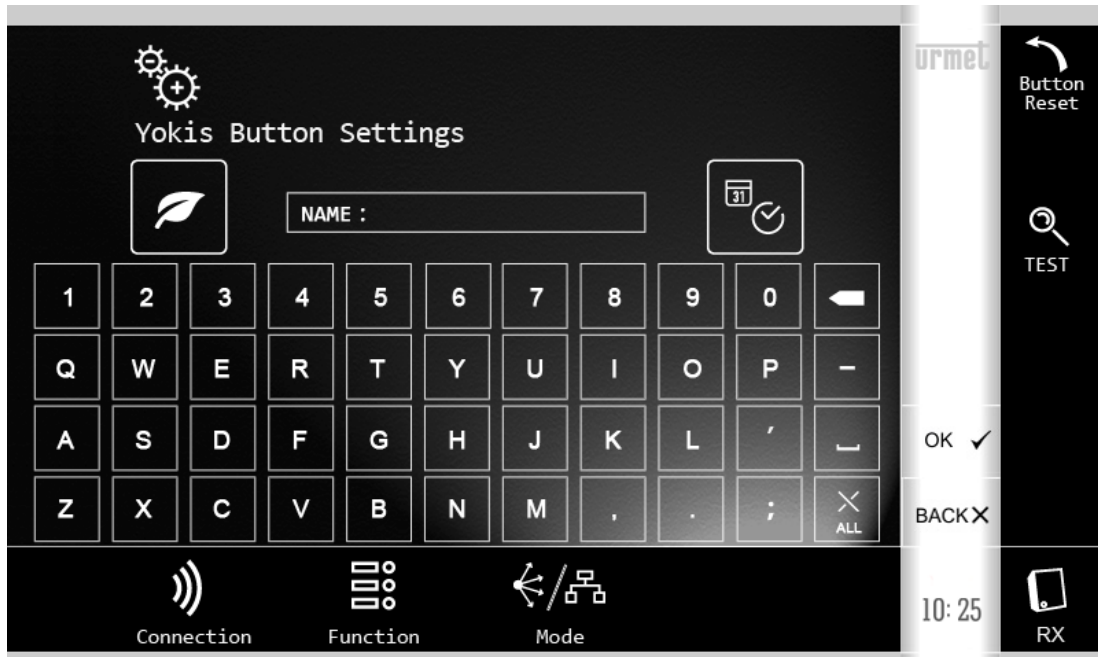

To schedule a control for one or more weekly occurrences, from the Home Page of the monitor, press the icon

'Settings' and then select 'Yokis'. You will obtain access to the following page:

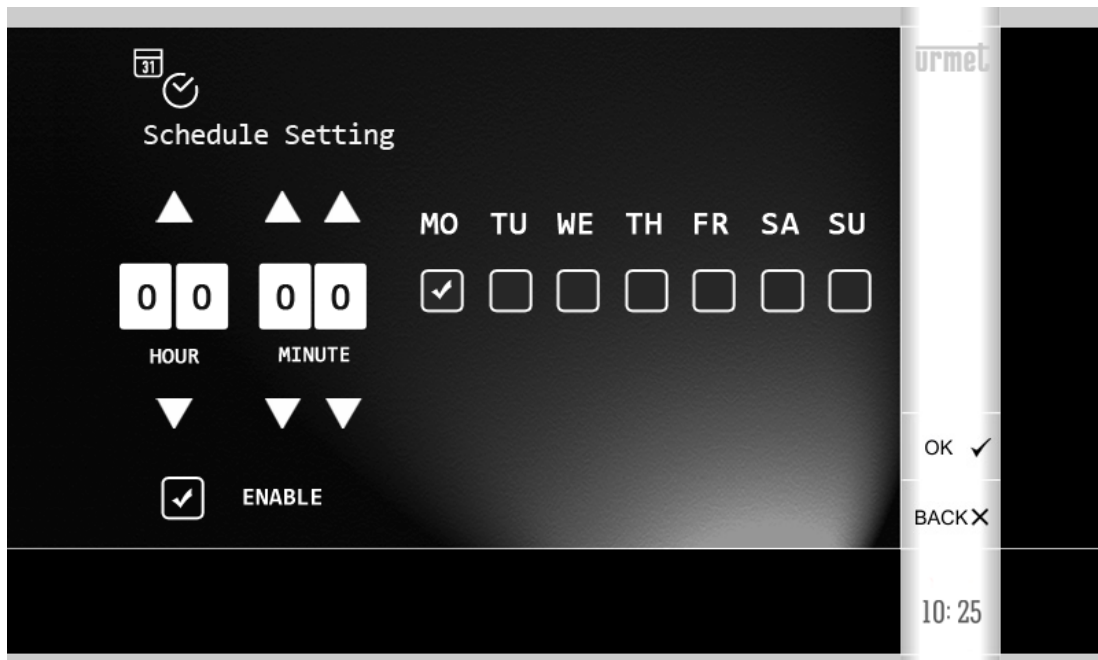

Select the button that you wish to schedule, e.g. the first one. You will display:

Tap the icon and select the scheduling time and days in the following screen:

**NOTE THAT** the scheduling only becomes active if the 'Enable' box is ticked, too.

To return to the Home Page, press 'OK' twice to confirm the changes and then 'BACK' twice.
